**Welcome note by:  
Mr Ntoudi Mouyelo  
Chief Investment Officer  
Rwanda Finance Limited**

It has been with great pleasure and anticipation that Rwanda Finance Limited (RFL) has been able to facilitate the establishment of JurisTax Rwanda, through the Kigali International Financial Center (KIFC).

From the early days of engagement with the founder of JurisTax Group, Ms Nishi Kichenin, we realized the strong commitment of the company to become a pioneer and leader in corporate management in Rwanda and the region.

This forward-thinking determination to service the development of Africa's cross-border trade and investments, led JurisTax to become the first authorized financial institution to operate as a Trust and Corporate Service Provider under the supervision of the National Bank of Rwanda.

Today, the KIFC ecosystem will benefit from the expertise built by the Group in other international financial centers such as Mauritius, United Arab Emirates (Ras Al Khaimah) and South Africa.

With the growing number of entities being established in Rwanda and the increase in investment transactions being structured through Kigali International Financial Center, the role of an organization such as Juristax is important to support RFL in its mandate to develop and promote Rwanda as an attractive business and financial destination in Africa.

We are looking forward to working closely with our new KIFC member, JurisTax Rwanda, to stimulate growing African connectivity through corporate and financial services.
